I've finally completed the identification of your Perth Airport mozzies:

- A larva 1 Aedes macintoshi (3 larvae)
- B larva 2 Anopheles annulipes (2 larvae)
- larva 6 Anopheles annulipes (2 larvae)
- larva 7 Anopheles annulipes (2 larvae)
- C larva 2a Anopheles annulipes (1 larva)
- D larva 3 Chaoborid? (4 larvae) We don't have any keys - sorry!
- E larva 4 Culex australicus? possibly Cx. globocoxitus (2 larvae)
- larva 4a Culex australicus (6 larvae)
- F larva 5 Aedes alboannulatus (2 larvae)
- larva 8 Aedes alboannulatus (2 larvae)
- G larva 7a Anopheles annulipes (1 larva)

Regards, Sue
